

Vision

To stand distinguished as a Centre of Excellence that fosters talent, research aptitude, entrepreneurship, human values and holistic development of competent healthcare professionals to fulfill the requirements of the industry and community, at large.

Mission

With a view to accomplish our vision, SVBCP aims to

- provide state-of-the-art infrastructure and a teaching-learning environment that is conducive for holistic development.
- instill the values of discipline, integrity, humanity and professionalism required for the healthcare sector.
- nurture young professional leaders to work towards novel research ideas, innovation and entrepreneurial thinking for benefit of the community, at large.

Programme Education Objectives

- To impart knowledge, develop skills and core competency in subject of pharmaceutical sciences in order to develop a career through higher studies, employment and entrepreneurship
- To inculcate deep sense of humanity, discipline and responsibility towards society by keeping in mind ethics for health care related practices and play role in patient counselling
- To empower the students to integrate the technical and the allied knowledge gained through various courses of pharmacy programme for sustainable development of pharmacy profession and society as a whole.
- To inspire students to keep abreast of state of art technology through lifelong learning
