

MULTIPLE CHOICE QUESTIONS For PRACTICE
FINAL YEAR B.PHARM (SEMESTER VIII) CBCS SYLLABUS
SUBJECT: PHYTOPHARMACEUTICAL TECHNOLOGY

Q No,.	QUESTION
1	One of the following is not a property Of bioenhancers a. Should be bidirectional in action. b. Should be compatible with other active pharmaceutical ingredients. c. Should be stable with time and environment. d. Should be easily formulated into a various dosage form
2	The precursor to chamazulene which has anti-inflammatory activity is a. Matricin b. Apigenin c. Alpha -bisabolol d. Alpha – bisabolol oxide
3	The constituent present in “Echinaceae” is a. Asarone b. Diterpenoids c. Flavonoids d. Alkamides
4	One of the following is not correct about “Calamus” a. It belongs to araceae family b. The oil has antioxidant activity c. It has tranquilising properties d. It may cause malignant tumors of duodenum
5	One of the following is not true about “Ginger” a. It is used in motion sickness b. Sesquiterpenes are the class of constituents present in it c. It improves blood circulation d. It inhibits cytochrome P450 enzymes
6	the property of apricot oil is a. Treats psoriasis b. Produce bleaching action c. Helps in tissue regeneration d. Treats skin cancer
7.	One of the following is a crucial factor in the extraction of berberine

	<ul style="list-style-type: none"> a. Temperature b. Particle size c. Solubility d. Pressure
8.	<p>The property of mannans is</p> <ul style="list-style-type: none"> a. Fairness b. Moisturizing c. hair dye d. cathartic
9	<p>The most commonly used method for extracting pectin from plant tissue is by heating the plant sample in</p> <ul style="list-style-type: none"> a. Alkaline water b. Pure water c. Acidified water d. Hydroalcoholic solution
10	<p>The skin lightening property of arbutin is due to its</p> <ul style="list-style-type: none"> a. Moisturizing b. Removal of dead cells c. Tyrosine inhibitory d. Antioxidant
11	<p>One of the following is not true about Phytosomes</p> <ul style="list-style-type: none"> a. Phytosomes have better stability b. Phytosomes have better solubility c. Phytosomes increases cutaneous absorption of drugs d. Phytosomes require large dose of drug to be entrapped
12	<p>Skin moisturizer constituent of Aloe vera</p> <ul style="list-style-type: none"> a. Acemannan b. Aloe-emodin c. Barbaloin d. Rhein
13	<p>One of the following is not the property of TDDS</p> <ul style="list-style-type: none"> a. Sustained and controlled delivery over a prolong period of time. b. Direct access to target or diseased site. c. Hepatic metabolism of drugs takes place D. Ease of dose termination

14	<p>Which one of the following is used as dental filling material</p> <ul style="list-style-type: none"> a. Neem b. Clove c. <i>Salvadora persica</i> d. Zinc Eugenate
15	<p>Colouring constituent in <i>Onosma echioides</i> is</p> <ul style="list-style-type: none"> a. Alizarin b. Alkanin and Shikonin c. Purpurin d. Colchicine
16	<p>Commercial source of Citral is</p> <ul style="list-style-type: none"> a. <i>Citrus auranti</i> b. <i>Citrus limon</i> c. <i>Cymbopogancitratus</i> d. <i>Cymbopoganmaritinii</i>
17	<p>When senna is abused for the purpose of weight loss the following effect is predominantly observed</p> <ul style="list-style-type: none"> a. Hypokalmeia b. Hyponatrimia c. Weight gain d. Emesis
18	<p>Which drug is used for memory deficit?</p> <ul style="list-style-type: none"> a. Ginkgo biloba b. Echinacea c. Garlic d. Kava Kava
19	<p>Which part of Stevia to isolate sweetener?</p> <ul style="list-style-type: none"> a. Root b. Bark c. Seed d. leaf

20	<p>Which drug is used for CVS health?</p> <ul style="list-style-type: none"> a. Ephedra b. Kava kava c. Ginger d. Tomato
21	<p>Which is the constituent of Coriander oil?</p> <ul style="list-style-type: none"> a. Mannans b. Curcumin c. petroselenic acid d. Lactone
22	<p>The skin lightening property of arbutin is due to its</p> <ul style="list-style-type: none"> a. Moisturizing b. Removal of dead cells c. Tyrosine inhibitory d. Antioxidant
23.	<p>The constituent responsible for colour in Carthamus tinctorus is</p> <ul style="list-style-type: none"> a. Carthamin b. Crocin c. Bixin d. Lycopene
24.	<p>Soft gel capsules are examples of ----- herbal preparations</p> <ul style="list-style-type: none"> a. Solid herbal preparations b. Semisolid herbal preparations c. Oily herbal preparations d. Liquid herbal preparations
25.	<p>The phytopharmaceutical approved for treatment of emesis</p> <ul style="list-style-type: none"> a. Ginger b. Garlic c. Ginkgo biloba d. Liquorice
